Xentry is preferred over the paper entry form for the Qualifying Rally.

Go to useventing.com, Events, Resources and click on Xentry. Log in to the USEA Online Services by clicking on the Xentry logo. Enter your email address and type a 10-digit password. Click Create Login. A verification link will be sent to your email; sign back in and follow the instructions.

Starter-level riders will be given an USEA number so they can use Xentry for free but have to create a "Limited Registration" for their horse. If they want to accumulate points for the AECs, they must pay to join. Note: Starter is not included at Championships.
